

Filip Kučera

I successfully graduated from the Secondary Technical School in Mladá Boleslav [SPSMB], specializing in IT. This field has allowed me to develop both my imagination and logical thinking skills I enjoy applying in my own creative projects.

As of now, I am studying at VŠB-TUO.

[Student, developer]

[1.9.2005]

Skills

- ~ % MERN, JS, TS, Electron, C#, Unity, SQL, Linux, C, C++
